

## Winter weather impacting your commute?

We invite hospital professionals to stay safe and spend the night at Family House whenever inclement weather or another need arises. We're open every day of the year! Call **412-647-7777** for our availability or book online.

### **We also invite:**

- Medical professionals traveling to Pittsburgh for a conference or work event.
- Residency candidates who need lodging while in the city.
- On-call surgeons who have reason to remain close to a hospital overnight.
- Other hospital professionals as need arises.

**Note:** We save rooms with the lowest prices for non-medical professional guests in need and cannot guarantee availability every night.
